## SKILLS

REST API

NO SQL

MYSQL

Java

React

Javascript

Next

TypeScript

C

C++

Node

Express

MongoDB

Redux

Git and Github

Docker

CI/CD

## PERSONAL PROJECTS

shopEcho (07/2021 - 09/2021) [🔗](#)

- Code with Next, TypeScript, MongoDB, Tailwind CSS, Framer Motion
- A place where you can visualize things in 3d and learn new concepts

AeroGear (09/2021 - 10/2021) [🔗](#)

- AeroGear is a web platform where students come across and learn about various plane's features.
- Interactive 3d models
- Built with react, typescript and tailwind css where we can access the 3d model information.

funWithBots

- It is a discord bot where we can assign roles to its new members, kick a user functionality, ban a user or unban a user, a simple ping-pong command and where we are integrating a music bot.

## OPEN SOURCE

Skilltober - Worked on its UI during hacktoberfest

## CERTIFICATES

Program solving(Basic) (08/2021 - Present)

Hackerrank

## INTERESTS

Open Source

Software Development

Chrome development
